Employee Portal System

Product Requirements Document (PRD)

Version: 1.0

Prepared By: Product Owner

Project Type: Internal Web Application

Target Users: Employees, Managers, Administrators

1. Introduction

1.1 Purpose

The Employee Portal System is an internal web application that helps employees manage their daily work activities.

The system allows employees to:

- Login securely.
- View their personal information.
- Record attendance.
- Submit leave requests.
- View company policies.
- Submit HR requests.

Managers can approve or reject leave requests.

Administrators manage employees, policies, and HR requests.

1.2 Business Goals

The objectives of the system are:

- Reduce manual HR work.
- Improve communication between employees and HR.
- Store employee information in one place.
- Digitize attendance and leave requests.
- Provide employees with easy access to company policies

1.3 Scope

The first version of the system includes:

- Authentication
- Dashboard
- Employee Profile
- Attendance
- Leave Management
- Company Policy
- HR Requests

2. User Roles

Administrator

The Administrator manages the system.

Responsibilities:

- Create employee accounts.
- Edit employee information.
- Upload company policies.
- Manage HR requests.
- Assign managers.
- Manage employee roles.

Manager

The Manager supervises employees.

Responsibilities:

- Review leave requests.
- Approve or reject leave requests.
- Add comments to leave requests.

Employee

The Employee uses the system daily.

Responsibilities:

- Login.
- View profile.
- Record attendance.
- Submit leave requests.
- View company policies.
- Submit HR requests.

3. Functional Requirements

Module 1 – Authentication

Description

The Authentication module allows users to securely access the system.

Features

- Login
- Forgot Password
- Change Password
- Admin creates employee account.
- Employee receives an email to set the password for the first login.

Business Rules

- Email must be unique.
- Password is required.
- Only active employees can log in.
- Every user has one role.
- A user can change their password after logging in.

Module 2 – Dashboard

Description

The dashboard provides a quick summary of important information.

Features

- Welcome message
- Today's attendance status
- Upcoming holidays
- Today's birthdays

Module 3 – My Profile

Description

Employees can view their personal information.

Administrators can update employee information.

Employee Information

- Photo
- Full Name
- Employee ID
- Email
- Phone
- Department
- Job Title
- Manager

- Joining Date

Business Rules

- Employees cannot edit their profile.
- Administrators can edit employee information.

Module 4 – Attendance

Description

Employees record their working hours.

Features

- Clock In
- Clock Out
- Attendance History
- Filter by Date
- Working Hours Calculation

Business Rules

- Employees cannot clock in twice without clocking out.
- Clock Out is allowed only after Clock In.
- Working hours are calculated automatically.
- Attendance records cannot be deleted.

Module 5 – Leave Management

Description

Employees submit leave requests for manager approval.

Leave Types

- Annual Leave
- Sick Leave
- Unpaid Leave

Features

- Submit Leave Request
- View Leave History
- View Leave Status
- Manager Approves Request
- Manager Rejects Request
- Manager Comment

Leave Information

- Leave Type
- Start Date
- End Date
- Reason

Status

- Pending
- Approved
- Rejected

Business Rules

- Employees can only edit or cancel a request while it is **Pending**.
- Approved and Rejected requests cannot be modified.
- Every leave request must have a manager decision.

Module 6 – Company Policy

Description

Employees can view company policies.

Administrators manage company policies.

Categories

- HR
- Attendance
- Leave
- Security

Features

- View Policy
- Search by Title
- Download PDF
- Upload Policy (Admin)

Business Rules

- Only Administrators can upload policies.
- Employees have read-only access.

Module 7 – HR Requests

Description

Employees can submit requests to HR.

Request Types

- Employment Certificate
- Salary Certificate
- Update Personal Information
- Other

Features

- Create Request
- View Request Status
- HR Updates Status
- HR Adds Comment

Status

- New
- In Progress
- Completed

Business Rules

- Employees can only view their own requests.
- HR/Admin can update request status and comments.
- Closed requests cannot be edited.

4. Non-Functional Requirements

Performance

Pages should load within 3 seconds under normal usage.

Security

- Users must log in before accessing the system.
- Passwords must be securely stored.
- Users can only access pages allowed by their role.

Usability

- The system should be simple and easy to use.
- The interface should be responsive for desktop and tablet devices.

Reliability

- The system should save all data successfully.
- Users should receive clear messages when an error occurs.

5. Out of Scope

The following features are **not included** in Version 1.0:

- Payroll Management
- Employee Performance Evaluation
- Recruitment
- Document Management
- Notifications
- Mobile Application
- Reporting and Analytics
- Multi-language support

6. Future Enhancements

Future versions may include:

- Email notifications
- Dashboard charts
- Leave balance calculation
- Employee document management
- Payroll integration
- Mobile application
- Calendar integration
- Employee self-service profile updates

7. Success Criteria

The project will be considered successful if:

- Employees can securely log in.
- Employees can record attendance.
- Employees can submit leave requests.
- Managers can approve or reject leave requests.
- Administrators can manage employees and company policies.
- HR can manage employee requests.
- The system is stable and easy to use.
